

INVOLVE: A Media Sharing Solution from Primeway

Introducing Involve, Primeway's new media sharing application allowing up to four or six users to connect quickly and easily to one screen. Link to Involve using a laptop or tablet. The connection via standard HDMI cables are fast and convenient and can easily be installed into any Primeway conference table, training table or media unit. Utilizing Primeway's Power/Data center, connections are kept hidden under the work surface providing ample table space.

- Four or Six User Applications
- Switch media source with the tap of a button
- Connections concealed under the work surface
- Works with all devices that output HDMI signal (also works with VGA adapters)
