

# Primeway

## Primeway, Inc – Wood Finish Disclaimer

The wood finishes are a match to Primeway's standard woodgrain HPL finishes and apply where wood edge profiles are offered. Consult the factory for special pricing where the entire product in a wood / wood veneer finish is required. Custom Color Matching is available and an upcharge will apply based on complexity of the finish. A wood sample provided to Primeway for matching is required. See disclaimer regarding all wood finishes.

### Wood Finish Disclaimer

Due to natural variations which occur in veneers and hardwoods, such as grain, texture and color, no guarantee can be made of an exact match to samples. Because of the natural characteristics of wood, and because finish is applied to solid woods as well as veneered panels, slight variations in color may occur between samples and actual furniture.

Factors such as aging and exposure to various forms of light alter finishes. Refer to current wood samples if the issue date is greater than 18 months old.
